

Environmental Researcher &
EdTech Product Specialist

SUMMARY

Environmental researcher with an M.S. in Environmental Science and Engineering and a background in Chemistry. Experienced in air pollution research in Myanmar, environmental and geospatial data analysis, statistical modeling, and machine learning. Brings more than five years of experience in EdTech product development, content development, and project coordination.

EDUCATION

Master of Science in Environmental Science and Engineering Sep 2024 - Aug 2026

Pohang University of Science and Technology (POSTECH), South Korea

- GPA: 92.7/ 100
- Focus & Coursework: Global Environment, Big Data, Deep Learning, Environmental Statistics, and Air Pollution

Bachelor of Chemistry (Honours) Sep 2014 - Sep 2019

University of Yangon, Myanmar

- GPA: 95.4/100

WORK EXPERIENCE

360ed Company| EdTech Social Enterprise

Product Localization Project Manager (US| Remote| Project-Based) May 2026 - Aug 2026

- Led the development of the English demo version of an existing Grade 5 Science application, overseeing content translation, review, application testing, and implementation to ensure consistency with the original Burmese version.

Content Development Specialist (US| Remote| Project-Based) Jan 2024 - May 2025

- Developed and refined digital educational content for a Grade 5 Science application, including lesson text, assessment questions, visuals, and multimedia elements.
- Collaborated with subject specialists, graphic designers, animators, and audio teams to translate educational concepts into engaging digital learning experiences and maintain content quality.

Education Product Manager (US| Remote| Full-time) June 2021 - Dec 2023

Elements AR – Product Manager

- Led the development of Element AR, an augmented reality–based science learning application, overseeing educational content, product features, design, media, and technical implementation.
- Contributed to 360ed’s broader portfolio of digital learning products, which collectively reached over 1.2 million learners.

Grades 6–8 Open Learning Resources – Lead Project Coordinator, 360ed

- Served as 360ed's Lead Project Coordinator, managing project implementation, deliverables, timelines, and communication with PADECO, DoOR, and UNICEF.
- Oversaw the development and quality review of educational audio, video, and guidance materials through stakeholder review, revision, and final delivery.

Junior Product Officer (Myanmar | Full-Time)

Nov 2019 - May 2021

- Tested and improved science learning applications and educational materials, supporting UI/UX, educational game design, and integration of science content into digital products.
- Produced science experiment and instructional videos to support student understanding and engagement

RESEARCH & PUBLICATION

- Integrated Assessment of Air Pollution Dynamics and Health Impacts in Myanmar: Evidence from Ground Monitoring, Satellite Observations, and Modeling. Environmental Pollution, 2026.
[DOI: 10.1016/j.envpol.2026.128918](https://doi.org/10.1016/j.envpol.2026.128918)
- Oral Presentation, KOSAE Fall Conference, Oct 2025

AWARDS & SCHOLARSHIP

- Global Korea Scholarship (GKS), Government of the Republic of Korea, 2023
- Dr. Maung Maung Htay Scholarship, University of Yangon, 2021
- Academic Excellence Awards, University of Yangon

PROFESSIONAL DEVELOPMENT

- Women Rising for Climate Resilience – 2nd Cohort, Wedu, 2026
- Science and Technology for a Sustainable World, Parami University, 2022
- Myanmar Bridge Education Program, Institute for Strategy and Policy – Myanmar, 2022
- Foundations of Project Management, Google, 2021
- Media Literacy for Community Leaders, YSEALI, 2020

SKILLS

Technical & Research: Python, R/RStudio, ArcGIS, Environmental Data Analysis, Statistical Modeling, Machine Learning, Remote Sensing, Data & Geospatial Visualization

Product & Project: EdTech Product Development, Educational Content Development, Project Coordination, Cross-Functional Team Management, Quality Assurance, Stakeholder Coordination
